1. Introduction

Aiswarya Vidya Mandiram, primary school is situated at Karadippara which is approximately 5 kms away from Ambalawayal, Wayanad. This school is registered under the Vidya Bharathi samiti. Currently the school is having classes from LKG till 07th Standard.

2. Brief history and statistics about the school

Aiswarya vidya Mandiram was started in the year 2000 with only 3 teachers and 25 students for the LKG and UKG classes. In the next years the school was further extended to more classes and more students were added to the classes.

Today the school has 90 students and 7 teachers and one headmistress for the Academic side. In the non-teaching side there is one peon who is helping in the house keeping jobs of the school. Aiswarya vidya mandiram also accommodates a sizeable number of local Adivasi community.

3. Current situation

The school is currently having severe financial difficulties. This is quite visible once you visit the school directly. The roof, walls and the floors are not in a comfortable zone for children and need to be renovated in the coming days. Even the head mistress room does not have good facilities like a cupboard or a computer.

The fundamental problem currently the school is facing is the roof. Even though the school needs an office room and other renovations, renovation of the roof and making it leak proof is the most important one for the time being.

Some snaps about the current status is given below.

As you can see in the images above, the entire buildings are very old now. And renovations are to be immediately done before the next academic year. Also once the rainy season starts the school functioning may be totally affected as the current roof has leakages all over and the water may enter to the class rooms. This will be a real bad situation for the children to have such an academic atmosphere.

All the teaching and non-teaching staff in Aiswarya vidaya mandiram is working on a purely service oriented manner by drawing a very less salary. This fully dedicated teachers and the non-teaching staff is the main pillar of continuing this institution in the current manner.

4. What we need?

Currently the school is in need of a good water leakage resistant roof. By renovating the present sheets with good quality ones the problem may be settled.

5. Formal request.

The school committee hence formally requested the NGO for renovating the school roof. As the academic year has already started for the 2018-2019 calendar plan, an implementation at the earlier will be very much helpful for the entire children.

6. Our motivation to start this project

It's for the needy that our helping hands should reach to. And when it's the little ones we are reaching up to makes our hearts filled with joy and happiness.

The Aiswarya vidya mandiram is situated in a remote location of Wayanad district which accommodates majority of the tribal and economically backward children of the area. The authorities of the school approached the Sreshtabharath through..... with the request to reconstruct/ renovate the roofing of the school. Our members wholeheartedly agreed for the work to be done by immediate effect.

7. Project execution

We put forth the request sent by the School Management to all our SB Members through our weekly meet, Emails/ Phone Calls. The committee agreed and collected the funds from Sreshtabharath members and near ones for this work. Our aim was to remove the sheets and replace it with red bricks. Rate quotes were obtained from the local business persons and the one having a reasonable quote were finalized.

A total budget of two lakh was allotted for the project. And one lakh was initially handed over for starting of the project. Once the entire work was completed the remaining amount was released. The project completion took 90 days approx and the full work was completed before the re-opening of the school after summer vacation.

2. Ensure safe custody of the pass book. In case it is lost, stolen, destroyed or spoilt, make an application for issuance of a duplicate passbook. Duplicate passbook is issued with nominal charge.

3. Cheque book safeguard: -

1. Use fresh book every month (never) use same book.
2. While writing a cheque, use permanent ink (ball pen).
3. Use the account name and amount, please draw a line in the space left on the cheque.
4. Use the date when writing the cheque.
5. A cheque should be signed after all details filled in and verified.
6. Do not write on the MICR strip.
7. Use fresh ink when writing on the MICR strip.
8. Cross cheque by drawing two parallel lines at the top of left corner of the cheque before handing over. A crossed cheque is easy to track any wrong payment to an unintended beneficiary.
9. Ensure that you have sufficient balance in the account to pay for the cheque you have issued. Bank will return the cheque charge you for the transaction. Besides, the payee can take central action against you for issuing a cheque without having funds to pay for it.
10. If asked to give a blank cheque for verification of bank account number, write the word 'Cancelled' diagonally across the che before giving it.

8. Feedback from students and teachers

The feedback of the school authorities, the teachers and the students were positive and encouraging for us to take up more such projects.

9. Our takeaways from this project

We Sreshtabharath as a family learned a lot while driving this project. With our limited human resources, our members were not able to be present during the work time, but the management took the task and performed it at its best. We are planning to increase the scope for such projects and our participation by including more members to support upcoming projects. We were happy that for sure, students/teachers are benefited by our small initiative.
