1. Introduction

Advaithashramam, Meenangadi would like to initiate a project along with Sreshtabharath in the education sector for the benefit of the Wayanad tribal kids

2. Aim

The project of opening tuition classes at Wayanad aims at uplifting the educational quality among the tribal children. It also envisions the generation of employment for the girls who have completed their graduation from the same colony. By giving tuition classes for the school going children, it is a greater help for their regular academic syllabus. The children in those areas often fail to get along with the other students due to difficulties with their homes. These students come from financially, economically and educationally backward situations and find it very difficult to come in the mainstream education at the academic level.

3. Methodologies

An extra time support in the curriculum will help them to cope with the rest of the students in the class. Also, we intent to generate employment for the educated girls belonging to the same colony. Most a time's educated young girls do not get employed and the social and prevailing conditions restrict them to go out and find jobs. So to initiate them for self sufficiency and to earn their livelihood through small scale activities, we Sreshta Bharath members decided to take up this project of running tuition classes. Also we had the great blessings of the project to be overlooked by Swami. Hamsananda Puri, Naranarayana Ashram, Meenangadi. Swamiji had been constantly working along with the group, for their upliftment activities under the guidance of Swami. Chidananda Puri, Adwaithashram, Kozhikode. This was a greater happiness among the NGO members and discussion with him turned out to develop this project.

4. Mode of support

As an initial step, it was decided to start the classes in four colonies in and around Meenangadi. For the four tuition center an amount of Rs. 5000/- per month is to be devoted. This includes salary for the teacher and an amount for miscellaneous expenses such as books stationary items etc. The four tuition teachers will have be directly overlooked by Sw. Hamsananda Puri and SB co-ordinator of the project. Initially we have decided to run tuitions for a year and depending on the progress of the project, it may further be taken ahead.

5. Project Execution

Four teachers were found out and each teacher will train students in their team for the required classes.

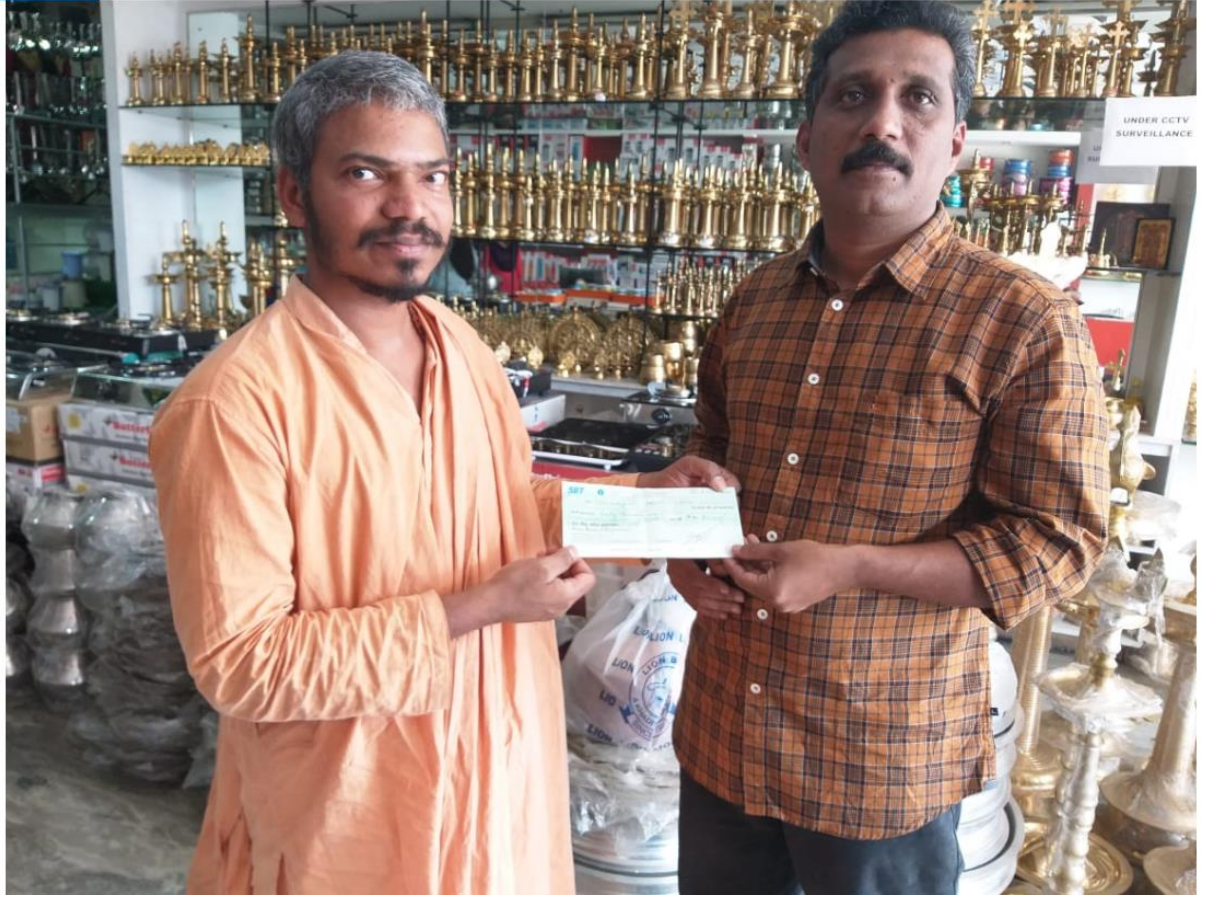

6. Mayilpeeli distribution

Mayilpeeli magazine is a children magazine published from Kozhikode. Since this is a very interesting story book for kids, Sreshtabharath also ordered it for a span of one year. 4 books were ordered to give it to the kids on a rotational basis.
