2	Sreshtabharath decision to support
3	Project execution
4	Fund handover
5	Conclusion

## **1. Supporting a colleague to regain health**

An ex-employee of SAP was suffering from leukemia.. Many SB members know him very closely and personally.

He has been battling with the disease since few months and is currently undergoing treatment in Vellore CMC.

He would need to undergo a transplant (bone marrow/stem cell) for which a donor has been identified fortunately.

The cost works out to be INR 60 Lakhs (including the transplant), which would obviously be well beyond any middle class family's financial scope. Also ,he with his wife and parents are currently staying in the vicinity of the hospital and might need to stay there until March,2014 which would also add up to the expenses. And yes, his little baby girl is staying with his wife's parents in Kerala.

## **2. SreshtaBharath decision to support**

In the meeting of SB members in December 2013 , it was decided that we will support him to regain his health . We wanted to hand over fifty thousand rupees to him.

## **3. Project execution**

In order to carry out the decisions made in the meeting a fund rising was initiated and contributions were invited from all the members.

## **4. Fund Handover**

In the month of April 2014 the cheque was personally handed over to him at Trivandrum , Kerala by Shyam Prasad .

## **5. Conclusion**

SreshtaBharath successfully completed the third project of providing financial aid to Vijay. Later the bone marrow transplant was successfully performed and he is recovering his health and started to work again.
