2. Appeal from Sukritham

Recently we received the below mail also from Sukritham for their new building construction.

Namaskaram, Hope this mail finds you in the best of your spirits. We, the Sukritham family would like to share with you all, few moments from Sukritham Girls Home, that has made our lives so special. As you are aware, few of my friends and me started this project in 2006 at a rented house, at Naduvannur, Kozhikode, with a vision to provide the less privileged girls in the society with opportunities for developing their abilities and talents. Starting with just one girl in 2006, we have come a long way from there, and we have 25 girls now. Two of them have completed 12th standard and has joined courses of their own choices- fashion designing and dairy farm management. Girls are trained in martial arts and have passed the primary level in karate with A grade. Most of our girls come from broken families and need much care. All are not good in academics, but they all have some special talents or skills and that's where we work on. Talented ones are given classes on fine arts and various crafts. The building project of Sukritham Gardens started on Nov 25th 2011, at our land of 2 acres at Kakkur, Kozhikode. We were able to complete it within nine months with the help of well wishers like you. At the time of construction, we had only 18 girls. In the initial phase of construction, the kitchen and dining area of the project were built and using gypsum walls, they were partitioned to make temporary bedroom, dining hall and kitchen. The cost for completing the project went up from the estimated amount of 42 lakhs to 45 lakhs. It wouldn't have been a success without your prayers and contributions. We had loaned from various individuals to complete the project on time and we were able to pay back all debts by last month. Our family at Sukritham Gardens is growing in a fast pace. At present we have 25 girls and limited space. As per government rules one girl needs 40 sqft of bed space. So we are planning for a second phase construction to improve the basic necessities and provide a study area, proper bedding, bathrooms etc...*Few details on our second phase construction. The total cost of construction is calculated approximately 45 lakhs (56,384EUR). In this building we could provide more bed room for the girls, computer room, study area and staff bed area. Estimate cost for 1 Sqft is 2000 INR (25 EUR). Sponsor 10 square feet at the total cost of 20000 INR (250EUR) and help us make our dream come true! If 225 like-minded people sponsor at least 10 sq.ft, our project can be completed on time.* If things go well, we wish to start our work by 2014 December and finish it by May 2015. You all have supported us throughout our journey and we look forward for your support for this phase too...Please forward this mail to like-minded friends and relatives as it might help us to complete the work on time. Any donation, big or small doesn't matter, when it comes from the heart. All contributions to Sukritham Charitable trust are exempted from Income tax. Details of the bank accounts are stated below:

3. Project execution

Sreshtabharath decided that we will support the Sukritham team with a 50000 Rs support initially for the building construction project.

4. Fund Handover

Having a full support and commitment from the team, SreshtaBharath handed over the cheque of FIFTY THOUSAND RUPEES to Sukritham team. Two members of SreshtaBharath personally handed over the cheque to Mr Mahadev .

Our fund will be used for the Second phase of Sukritham Girls Home extension project .

5. Conclusion

SreshtaBharath thus successfully completed the fifth project of supporting the construction of Second phase of Sukritham Girls Home extension project within the planned timeline.

SreshtaBharath will be following up with the ongoing progress and development. It shall also come forward as and when there is need observed
